
Name:	Leo Dai, Lawrence Benitez, Conner Ryan Petersen, Aiden McDougald, Evan Steinhoff	Date:	4/23/2024
Project:	FSAE Software	Period Covered:	April 13th - April 26th

Accomplishments since last report:

- ☐ Setup temporary data collection via Assetto Corsa Lua app.
- ☐ Updated UI for Unity
- ☐ Finished backend with golang connected to SQLite instead of Postgresql
- ☐ Setup data collection from GPS electronics

Scheduled tasks to be done by next report:

- ☐ Work on getting the GPS data to be accurate within 10mm
- ☐ Continue working on the UI for Unity
- ☐ Fix bugs in the golang backend

Noteworthy risks

- ☐ Getting accurate GPS data may come at the cost of sanity. Also make sure not to tweak the golang backend too much or else more work will have to be done to adjust the Unity App and Lua App to properly talk to the backend.
