Project:	FSAE Software	Period Covered:	October 1st - October 15th

Accomplishments since last report:

- ☐ Meet up as a group to work on the Software Development Plan Document.
- ☐ Succesfully used Fyne library in GoLang to setup a basic template for the Telemetry GUI App.
- ☐ Held two group meetings to assign tasks and to decide on using a Postgresql database.

Scheduled tasks to be done by next report:

- ☐ Code a rough basic implementation of the Telemetry Database for usage by the Telemetry App (28 October)
- ☐ Design a rough layout of the relational database that will be used in the telemetry app. (25 October)
- ☐ Make a basic table view with pretend data for Telemetry GUI App (28 October)

Noteworthy risks

- ☐ Make sure database is deployable on a linux based system because development will be done on a windows based machine.
