Accomplishments since last report:

- ☐ Created basic UI for unity
- ☐ Started porting database from MySQL back to Postgres

Scheduled tasks to be done by next report:

- ☐ Flesh out data visualization UI for Unity
- ☐ Finish backend with golang to connect to a Postgresql database

Noteworthy risks

- ☐ Changing the pipeline from MySQL -> PHP -> Unity to Postgresql -> Go -> Unity might bring up complications as we will have to rewrite the c# scripts in Unity to account for it.
